STATEMENT REGARDING RACE TO THE TOP

Monday, March 29, 2010 – “The Florida Consortium of Public Charter Schools (FCPCS) commends Commissioner Smith and the education leaders around the state whose contributions helped create Florida’s Race to the Top application. Although Florida will not be included in the first round of Race to the Top funding, FCPCS will continue to work diligently with education advocates and state leaders to help build grass-roots support and collaboration in preparation for the next phase of the grant process.”

Robert Haag, President
Florida Consortium of Public Charter Schools
